

A Happy Dog is a Healthy Dog

After a long day at work or school, there's nothing better than arriving home to a dog that dashes out to jump on you and lick your face. It's missed you all day. All it wants to do is play with you.

Dogs are part of your family. Like any family members you love them and want them to thrive and be around a long time. As dogs only live from 10 -15 years generally, you want your dog to be healthy and strong for as many years as possible. Don't you want your family member to live a long, strong, healthy life? Don't you want the best for your best friend? Dogs love to run, fetch and bark at squirrels. You want to see them thrive and be playful for as long as possible.

When, in 1990, William and Mary Johnson created Fury Friends Natural Products in Grayslake, Illinois, they wanted to transform the dog food industry. They wanted their products to be the best and to be the best they had to be the healthiest.

The Johnsons own four dogs and feed them with food from local organic farms. The Johnsons have two children, but treat their dogs like family. The Johnsons want the healthiest food for all of their family members including the dogs.

These organic farms take great care for their produce, raising healthy poultry and cattle.

The Johnsons are the perfect picture of pet parents who seek to provide safe, healthy and tasty dog treats. Their Puptastic Naturals dog treats are 100% freshly produced ingredients with no chemicals added.

These treats have the official stamp of approval from the FDA and the AAFCO (Assoc. of American Feed Control Officials).

These bite-sized doggie treats are great for training and on-the-go. And wow! These treats are tasty! You just have to see the dogs' eyes light up and lick their chops. So good!

These mouth-watering treats come in 5 delicious flavors; chicken, turkey, lamb, liver and beef.

Other ingredients help support the health of your dogs. Exquisite eggs, lean poultry, luscious lamb, liver and beef for protein. There's brown rice and potatoes for starch. Don't forget the carrots, green beans, pumpkin, and the sweetest sweet potatoes for nutrients and fiber.

Vitamin E is added as a natural preservative that maintains the product's integrity while being shipped and stored. Vitamin E also helps dry skin relief.

Here's a taste of what customers are saying:

“In the overwhelming sea of dog treat choices out there, it's important to find a truly healthy snack for dogs. I'm very impressed with the integrity of your business and I recommend Puptastic Naturals to all my clients looking for healthy treats for training or just anytime. We endorse only the healthiest, safest products, and Puptastic Naturals are at the top of our list of recommended treats.”

- S. Karovski

Not sure what flavor to test out? Check this out! Our Trial Sampler boasts 5 different treat flavors!
